Terms And Conditions Of Business

January 2020

1. Orders: All orders are accepted subject only to these Terms and Conditions which are not variable by any individual or party acting in any capacity whatsoever for or on behalf of themselves or Rutland Biodynamics Ltd (here in after called 'The Company'), excepting only as provided for in these Terms and Conditions.
2. Contract: The customer acting as the purchaser agrees these terms and conditions binding the purchaser to payment upon delivery of goods delivered.
3. Cancellation: Any order received by the Company and confirmed in writing (by payment, letter, facsimile, on-line shop or email) will be the contract binding the customer to acceptance and payment in full for the goods ordered if and when the goods become available and are delivered, unless, within sufficient time, the Company receives written notification of cancellation of the Order. In this context, the Company shall at its discretion absolutely define the term 'Sufficient Time' at the written request of the customer indicating a desire to exercise the option to cancel the order.
4. Shortages: Claims for short deliveries will not be entertained unless notified in writing within 7 days of receipt.
5. Specifications: Due to constant product development and innovation, the Company reserves the right to alter specifications or process without prior notice.
6. The Product: The products supplied are natural products subject to a degree of variability. Analyses, if provided, refer to the batch and date identified. Shelf-life will vary with storage conditions and under no circumstances will the company accept liability for product incorrectly stored. In regard of storage, current 'GMP for Pharmaceuticals' protocols are a minimum requirement. The risk of spoilage passes to the customer upon delivery. Store in cool dark dry air tight containers unless otherwise advised. Any complaint as to quality must be made in writing and received by the Company together with a sample within 72 hours of delivery.
7. Price: Price may be subject to fluctuation due to conditions out of our control. Prices in a printed catalogue were correct at the time of publication and should be taken as a guide only.
8. Use and Resale: The customer (the buyer) agrees that it shall be the fundamental premise in law of each and any contract between the buyer and the Company (the seller) that preparations manufactured by the seller are sold as ingredients for finishing as lawful products in any jurisdiction into which they are sold. In this respect, the seller is required to undergo due diligence checks and the buyer agrees to furnish sufficient evidence of compliance immediately upon request by the seller. In the case of practitioners, a copy of a training certificate, or membership of a professional body or other evidence of practice is usually sufficient.

Products that are made with duty free spirits or with medicinal herbs may be used only as ingredients in medicines, as defined in Council Directive/65/65 – Article 1:

Any substance or combination of substances presented for treating or preventing disease, or restoring, correcting or modifying physiological functions in human beings or animals.

'Presentation' in this context means that, if it is re-sold with a label, then the label on the packaging must state clearly its medicinal properties.

The products containing alcohol may NOT be presented as dietary supplements. In the event that the buyer does not comply with these terms, the buyer will hold the seller entirely free of liability and, the buyer will pay, any resulting excise charges levied or costs.

Any indication of usage or administration is expressly withheld by the Company. If in any doubt, consult a qualified herbal practitioner.

9. Delivery and Carriage charges: All delivered goods are subject to carriage charge which will be quoted on request. Any reasonable attempt to make delivery is treated at the company's discretion as if delivery has been effected.
Overseas delivery: Rutland Biodynamics will do our best to comply with other countries' local customs, laws and tariff regulations but overseas customers are responsible for importation and must satisfy themselves that the product is appropriately consigned from UK for importation into their jurisdiction. The company's liability for fate of goods ceases at port of entry and is treated as delivery has been attempted. The company does not accept any responsibility subsequently. Rutland Biodynamics will not refund goods that have been inappropriately imported.
10. The price: The price is in pounds sterling quoted on the price list current at the time the order is invoiced by the Company unless otherwise agreed in writing.
11. VAT: All invoices are subject, where applicable, to VAT at the prevailing rate.
12. Minimum order value: £20.00 before carriage costs.
13. Payment: should be made in pounds sterling by bank cheque, draft or other means agreed between the Company and the Purchaser. Cheques should be crossed 'A/C Payee' and made payable to Rutland Biodynamics Ltd.
14. Payment terms: Strictly 30 days nett from delivery. Interest is chargeable under Sec 69 County Court Act 1984 daily @ 8% above the current Bank of England base rate on any amount due and unpaid after 30 days. If any part of the account is unpaid after 30 days, the whole account becomes due for payment immediately.
15. The title: All goods invoiced remains the property of the Company until paid for in full.
16. Law: Dealings of the Company including the application of these Terms and Conditions will at all times be subject to the Law of England and Wales, the Courts of which will have sole jurisdiction in all matters pertaining.
